ABOUT USAD:

The USAD is a ten-event scholastic competition for teams of high school students. Events include economics, math, science, social science, literature, art, music, essay, speech and interview. Questions are based on an annual theme. This year's theme is *In Sickness and In Health: An Exploration of Illness and Wellness*. An additional event called the Super Quiz combines the subject areas into a quiz show format that is open to the public. Teams attending Nationals have won their state or in-country competition or are invited to attend as a Division IV participant.
